

# Community Photo Night Information 2025

**RESCHEDULED: Wednesday, February 19**

Tony Rose Memorial Sports Centre (Northview Room: **UPSTAIRS**)

The Tigers are excited about Community Photo Night 2025!

All players will receive an individual and a composite team photo from the OGHA. Photo packages and extras will be available for order. **All players, regardless of what they are ordering, must fill out an order form. We need every player's name associated with a photo and **players need to choose a background for their individual photo.****

Running shoes, crocs or slides are recommended for players—no boots, as they don't work well with shin pads! Lower-legs will not be shown in photos. Players should bring a stick for individual photos, but not their helmets or neck guards. Members of the Tigers Executive will be there to help organize teams and players in the hallway outside the Dufferin Room.

Individual photos are put together to create a composite team photo by the photographer. Teams do not need to congregate or wait for individuals. If players will be absent, it is important to communicate this to the photographer.

Every attempt will be made to get photos done before teams have practice, but some teams are on the ice before the photographer will be ready. Some players may be slightly late for their ice time, and some may need to take a photo after practice. All Head Coaches, Assistant Coaches, Trainers, etc., should have their photos done first so they are ready to go! Teams are encouraged to have everyone ready ahead of their assigned times, along with their coaches, trainers and managers.

Finally, each player is assigned a bar code that corresponds with their team, so the photographer can organize photos. Players do not need to line up in order.
